FCC - MAILROOM

Re: In the Matter of Federal State Joint Board on Universal Service, CC Docket No. 96-45.

Dear Ms. Dortch:

I represent the Public Utilities Commission of Ohio ("Ohio Commission") in this proceeding and I am writing to you in that capacity.

Accompanying this letter is a copy of a Finding & Order (F&O) released by the Ohio Commission on September 8, 2004. This F&O was issued pursuant to the FCC's directive set forth in CC Docket No. 96-45, which required State commissions to certify that the rural and non-rural carriers eligible to receive federal high-cost support in their State (including high cost loop support, local switching support, high cost support received pursuant to the purchase of exchanges, high cost model support, and hold harmless support) will use such funding only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with § 254(e) of the Telecommunications Act of 1996.

As you can see from the attached Order (Attachment 1), the Ohio rural and non-rural carriers previously identified by the Universal Service Administrative Company (USAC) as eligible to receive the aforementioned federal USF support has filed with the Ohio Commission a sworn affidavit demonstrating their intent to utilize such funding in a manner consistent with Section § 254(e) of the Telecommunications Act of 1996.

In further keeping with the federal certification requirements, also attached to this letter are two lists (included together as Attachment 2) separately identifying the specific rural and non-rural carriers, respectively, that were granted certification via the September 8th F&O, along with each carrier's unique 6-digit NECA study area code.

Accordingly, the Ohio Commission certifies that all of the above-referenced carriers have indicated in writing their intent to use the funding only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with § 254(e) of the Telecommunications Act of 1996.

Please send me a time-stamped copy of this letter in the enclosed self-addressed envelope (an extra copy of this letter is enclosed for that purpose). Otherwise, if you should have any questions or comments regarding this submittal, please contact me at the number below or Michael Dorrian, Utilities Specialist 1 with the PUCO, at (614) 644-8102.

Respectfully submitted,

Steven T. Nourse Principal Attorney

ATTORNEY --

FINDING AND ORDER

The Commission finds:

- (1) On May 7, 1997, the Federal Communications Commission (FCC) issued a Report and Order in CC Docket 96-45 (96-45) (In the Matter of Federal-State Board on Universal Service) adopting rules to promote universal service consistent with the requirements of the Telecommunications Act of 1996 (1996 Act). In its 96-45 decision, the FCC, among other things, set forth parameters for the states to determine those carriers eligible to receive federal universal service support. The states were further to determine those carriers that should be classified as rural carriers or non-rural carriers for the purpose of federal universal service support consistent with the Communications Act of 1934, as amended.
- On November 2, 1999, the FCC released its Ninth Report and Order and Eighteenth Order on Reconsideration in CC Docket No. 96-45. In that Order, the FCC addressed, among other things, the issue of non-rural carriers' eligibility to receive federal high cost support through the temporary "hold-harmless" provision. Hold-harmless support was established by the FCC as a short term measure to ensure that the amount of support provided to non-rural carriers under the newly revised high cost funding mechanism is no less than the amount provided under the former mechanism. The FCC determined that states are well suited and best positioned to determine whether non-rural carriers intend to utilize such hold-harmless support consistent with the goals set forth in Section 254(e) of the 1996 Act. Under Section 254(e), carriers must use universal service support "only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." Given that states generally have primary authority over carriers' intrastate activities, the FCC indicated that a state certification process provides the most reliable means of determining such carriers' compliance with the legislative mandate. Accordingly, the FCC stated that it would require the states that wish to receive federal universal service hold-harmless support for nonrural carriers within their boundaries to file a certification with the FCC and the Universal Service Administrative Company (USAC) stating that all federal high-cost funds flowing to those carriers in that state will be used in a manner consistent with Section 254(e). Absent such certification, carriers will not receive such support. Moreover, in the event that a State determines that a carrier has not complied with Section 254(e), the State shall have the authority to revoke certification.
- (3) In a similar decision issued on May 23, 2001 under the same docket (Fourteenth Report and Order and Twenty-Second Order on

Reconsideration in CC Docket No. 96-45), the FCC determined that states should also be responsible for determining whether rural carriers are using their universal service high cost support (specifically, high cost loop support [47 C.F.R., Part 36]; local switching support [47 C.F.R. §54.301]; and any high cost support received as a result of a purchase of exchanges [47 C.F.R. §54.305]) consistent with Section 254(e). Based on that determination, the FCC applied the same certification procedures for rural carrier receipt of high cost funding as it did for non-rural carriers' receipt of hold harmless support.

- (4) FCC certifications for federal high cost funding are to be submitted annually on October 1st, in order to be eligible for high cost support throughout the next full calendar year.
- (5) In order to comply with the FCC's certification requirements, on August 4, 2004, the Commission released an Entry in the instant docket calling for notarized affidavits from those rural and non-rural carriers receiving federal universal service high cost funding in Ohio, attesting that they will utilize such support consistent with Section 254(e). All affected carriers were required to use template affidavit forms provided by the Commission (as Attachments A and B to the August 4th Entry), and were directed to file such affidavits by August 25, 2004. Accordingly, properly filed affidavits were received from the following carriers:

Alltel Ohio, Inc. Arcadia Telephone Company The Arthur Mutual Telephone Company Ayersville Telephone Company Bascom Mutual Telephone Company Benton Ridge Telephone Company **Buckland Telephone Company** CenturyTel of Ohio, Inc. The Champaign Telephone Company The Chillicothe Telephone Company Columbus Grove Telephone Company The Conneaut Telephone Company Continental Telephone Company Doylestown Telephone Company Farmers Mutual Telephone Company The Fort Jennings Telephone Company Frontier Communications of Michigan, Inc. Germantown Independent Telephone Company Glandorf Telephone Company Kalida Telephone Company, Inc. Little Miami Communications Corporation McClure Telephone Company Middle Point Home Telephone Company Minford Telephone Company New Knoxville Telephone Company

The Nova Telephone Company
Oakwood Telephone Company
Orwell Telephone Company
The Ottoville Mutual Telephone Company
Pattersonville Telephone Company
Ridgeville Telephone Company
Sherwood Mutual Telephone Company
Sycamore Telephone Company
Telephone Service Company
Vanlue Telephone Company
Vaughnsville Telephone Company
Wabash Mutual Telephone Company
Western Reserve Telephone Company

- (6) The Commission's Staff has reviewed the affidavits submitted by the aforementioned companies, and has concluded that they satisfy the FCC's requirements for certification to receive high cost funding consistent with Section 254(e) of the 1996 Act.
- (7) The Commission finds that certification of the aforementioned carriers to receive federal high cost support, including interim hold harmless support for non-rural carriers, as well as high cost loop support [47 C.F.R., Part 36], local switching support [47 C.F.R. §54.301], and any high cost support received as a result of a purchase of exchanges [47 C.F.R. §54.305] for rural carriers, should be granted.

It is, therefore,

ORDERED, That all carriers identified in Finding (5), above, are hereby certified to the FCC and USAC as being eligible to receive federal high cost support (including interim hold harmless support for non-rural carriers, as well as high cost loop support [47 C.F.R., Part 36], local switching support [47 C.F.R. §54.301], and any high cost support received as a result of a purchase of exchanges [47 C.F.R. §054.305] for rural carriers), as such carriers have demonstrated their intent to utilize such funding in a manner consistent with Section 254(e) of the Telecommunications Act of 1996. It is, further,

ORDERED, That nothing contained in this Entry shall be deemed binding upon this Commission in any subsequent investigation or proceeding involving the justness or reasonableness of any rate, charge, rule, or regulation. It is, further,

ORDERED, That a copy of this Finding and Order be served upon all interested persons of record in this investigation.
